

### **Impact of Technology**

- Population growth, over the initial doe strength, was 254.81% during 2012-13 which is reached to 253.85 % in 2016-17.
- Improvement in body growth in all ages has also been achieved in 2016-17 over the previous years.
- Milk production is enhanced substantially during 2016-17 than the previous year.
- Reproductive efficiency has improved substantially in 2016-17.
- Flock strength of the farmers is increased to 5.80 in 2016-17 which was 2.53 at the starting of AICRP in 2002-03.
- Goat mortality rate is restricted below 10% i.e. 6.77% in 2016-17.
- Morbidity of goats is markedly reduced to 28.38% in 2016-17 from 84.32 % of 2012-13.
- Annual income from goat rearing is increased about 28.60% in 2016-17 than 2012-13 (i.e. from Rs 5560/- to Rs 7150/-).
